

HTML CODE FOR WEBSITE

This website was designed by HTML coding. It is a real domain and it is hosted by Godaddy and managed by Wordpress.

To know about the proper functioning of the codes and architecture of the project. We recommend you to view the Stack folder in the zip file and view the tech stack document in the folder.

Below is the code for the website page wise.

Homepage code: About page

```

<div class="entry-content">
<p><strong>AR Medicus Hospital </strong>is a chain of hospitals based in Mumbai,
India. It has branches in Bandra and Thane, with another branch coming up in
Malad. All of its branches are NABH and NABL accredited.</p>

```

<p>It was recognised as a leading hospital for oncology in 2019 after becoming the first hospital to achieve the milestone of treating 10,000 patients using RapidARC Technology.</p>

<p>The group has three branches in Thane, Bandra, and Malad with a combined bed capacity of 2400. The Bandra branch is NABH accredited and has a capacity of over 600 beds. It also has 3000 trained staff including doctors, nurses, and support staff.</p>

<p>AR Medicus offers service in the following specialities</p>

Neurology and
NeurosurgeryOncologyCardiologyGynaecologyPaediatric SurgeryAnaesthesiologyGeneral surgeryGeneral medicineDermatologyPaediatricsRadiology & imaging sciencesNeonatology

<p>AR Medicus Hospitals has been involved in medical advancements and rare cases in neurosurgery, cardiology, and oncology.</p>

<p>. Neurosurgery</p>

<p>In 2017, it became the first hospital in India to install Intraoperative 3T MRI. The iMRI makes brain surgeries safer, more precise, and removes the need to perform multiple surgeries. As of 2019, over 200 complex surgeries have been performed at the hospital using the technology.</p>

<p>. Cardiology</p>

<p>In 2017, AR Medicus Hospitals performed the first combined heart and lung transplant in the state of Maharashtra. Doctors at AR Group of hospitals regularly perform heart transplant surgeries supported by the Jeevandan scheme.</p>

<p>. Organ Transplants</p>

<p>AR Medicus Hospitals also performed the first robotic transplant surgery in Maharashtra in 2017. It performed 3 robot-assisted kidney transplants in its Bandra branch.</p>

<p>The group of hospitals distinguished itself by performing the first haplo-identical bone marrow transplant in the region. It has been performing heart, kidney, liver, and lung transplants for a decade (as of 2017). It has also instituted centres for organ transplants where transplants are performed regularly by working with medical centres worldwide.</p>

<p>. Oncology</p>

<p>AR Group of Hospitals was recognised as a leading hospital for oncology in 2015 after becoming the first hospital to achieve the milestone of treating 10,000 patients using RapidArc technology. The 10,000th patient to receive treatment using RapidArc radiotherapy was a 3-year old girl who was cured of medulloblastoma, a malignant brain tumour.</p>

It is equipped with the facilities to perform robotic surgeries. Doctors can perform Minimally Invasive Oncosurgery (MIOS) using this technology.

Pulmonology

The hospital performed the first lung transplantation in Maharashtra in 2012. Archana Shedje, a 34-year-old from Pune suffering from interstitial fibrosis underwent the life-saving surgery.

It launched the first International Conference and Live Workshop on Endobrochial Ultrasound (EBUS) and Advanced Lung Cancer Treatments in 2019.^{https://en.wikipedia.org/wiki/Yashoda_Hospitals#cite_note-24}[24] The hospital is equipped with advanced technology like bronchial thermoplasty, EBUS, radial EBUS, and navigational bronchoscopy and is one of the few hospitals in the world with such facilities.

This hospital chain along with being a multi speciality hospital is also equipped by a range of next generation AI and IOT tools. The goal of this hospital is To provide safe, secure, and high quality medical care. The range of AI and IOT tools include a website, an app enabled by Alexa, chatbots deployed for smooth and user friendly experience and others.

This is the hospital of the FUTURE.
